

# ENABLING YOUR FREEDOM TO MARKET

Arcadis' mission is to enable our clients to efficiently manufacture and market their products in a safe, responsible, and globally compliant manner. Our product stewardship team supports our clients worldwide by utilizing Centers of Excellence located in the United States, Belgium, Switzerland, and the United Kingdom.

## ENVIRONMENTAL MODELING

- Spray drift and atmospheric transport
- Surface and groundwater
- Terrestrial and ecological population

## FIELD STUDIES

- Terrestrial and aquatic dissipation
- Edge of field runoff, groundwater, and surface water
- Ambient air monitoring and field volatility
- Pollen and nectar sampling
- Ecological surveys and habitat assessments

## SPATIAL DATA ANALYSIS

- GIS-based leaching vulnerability assessments
- Remote sensing
- Field data collection applications
- Customized data visualization dashboards

## RISK ASSESSMENT

- Ecological
- Human Health

## REGISTRATION AND PRODUCT STEWARDSHIP

- Regulatory advocacy
- Biocidal Products Regulation (BPR)
- REACH Registration and Authorisation
- IUCLID data entry
- Classification, labelling, and SDS authoring
- Product sustainability (eco-labelling, circular economy)

## LITIGATION SUPPORT

- Expert witness
